"GUILD SPIRIT" *and* PRESCRIPTIONS

In olden days, skilled craftsmen banded themselves into Guilds to insure the finest standards for their products.

And amid the chaotic conditions of today, united by a common cause, a group of old established drug stores carries on.

To thoughtful, discerning physicians these stores offer the highest type of prescription service, backed by city-wide reputations. Their records are a guarantee of competence and conscientious care in the true "Guild Spirit."

PREFACE

THE Thirty-eighth Edition of the Medical Directory of New York, New Jersey and Connecticut has been compiled cooperatively by the Medical Societies of the states represented to give the user additional and more complete data. At no time in the past has this Directory furnished so much essential and valuable information to make it an indispensable source of reference, and the only one containing new professional data heretofore unpublished.

Listed Medical Practitioners—29,484 physicians legally qualified to practice medicine in New York, New Jersey and Connecticut, are listed. Of this number 22,577 are registered in New York State, 4,790 in New Jersey, and 2,117 in Connecticut. In New York State (excluding New York City) there are 8,207. New York City totals 14,370 of which, 6,980 practice in Manhattan, 4,125 in Brooklyn, 1,814 in Bronx, 1,285 in Queens, and 166 in Richmond.

New Important Data—Through courteous and efficient aid of the Medical Societies of New Jersey and Connecticut, the professional data published for both states is now as complete and authoritative as that for New York. Hospitals, dispensaries, their staffs, society officers, and other information is also included for the first time. For New York State it will be noted that new designations have been assigned to physicians who have "qualified" under the recently amended Workmen's Compensation Laws. Such qualified physicians are designated by the symbol ∘ appearing before their names. Other code letters and numerals, indicating the specialty certifications by the State Commissioner of Labor, are keyed on page xlvii.

The Committee on Publications of the Medical Society of the State of New York appreciates the assistance given by the physicians and their representative organizations which enabled those preparing this Directory to compile its contents with a negligible number of errors and omissions.

In dedicating this and future editions to greater usefulness and service, the Committee earnestly requests all physicians in the three states to take particular pains to furnish the Medical Society of their state with the data requested annually.

Attractive Reception Room Furniture

Modern metal furniture—as produced by Doehler—is excellent for reception rooms and has distinct advantages from an economic viewpoint in addition to its charm and beauty.

Clean, flowing lines combine with utmost durability and long life to satisfy the needs of the Doctor whose reception room must be in perfect taste without constant expense for upkeep.

Now that modern metal furniture has taken its place in the decorative scheme, its use in reception rooms and offices demonstrates a forward-looking attitude and the readiness to adopt new ideas when their worth is established.

Members of the Medical Society of New York State are invited to call and will be allowed the usual professional discounts on furniture for their professional or residential requirements.

Doehler, as you undoubtedly know, manufactures a complete line of metal furniture and equipment for hospital private and staff rooms, wards, nurses' stations, operating rooms, etc.

SPECIALISTS

We specialize. We do a lot of business with physicians and surgeons. We believe we know what kinds of wines and liquors you like and that you like them quickly (and inexpensively!). We give special attention to prescription orders—sherries, ports, other wines, and spirits. We deliver to office, home, or hospital—to any point allowed by law. We invite inquiries.
